PULVERIZER COMPANY

BRADLEY PULVERIZER SERVICES

Bradley Pulverizer Company is an independent, specialist manufacturer of mills, classifiers & superphosphate process equipment. We have built & supplied bulk handling equipment for over 130 years to many industries from process plants to quarries & we manufacture in the USA & UK. We have introduced some new services to expand our portfolio and help to support clients with their plants maintenance; improving plant reliability and productivity.

This includes the following;

- **PLANT UPGRADES AND AUTOMATION** - We can support most makes of PLC and motor starters including panel builds and modernisation of control systems to meet current legislation.
- **SITE LABOUR** - Skilled and experienced mechanical engineers available to assist with your maintenance issues, together with site welding and fabrication services. All have extensive industry experience.
- **WORKSHOP OVERHAULS ON MACHINERY UP TO 7 TONS** - A fully equipped workshop serviced with a 7 Ton fork lift. Larger components can be handled by prior arrangement.

Our skilled engineers deliver a very high standard of work with many years of experience in refurbishing mechanical plant.

BEFORE

DURING

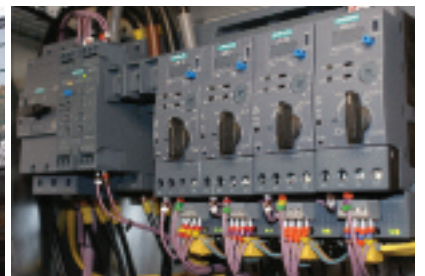

COMPLETION

- **COST EFFECTIVE PREVENTATIVE MAINTENANCE CONTRACTS** - Know what your preventative maintenance costs will be.
- **PROCESS PERFORMANCE ASSESSMENTS** - With a wide experience in bulk material handling our engineers can give a comprehensive assessment of your whole process.
- **CONDITION MONITORING** - Including Thermograph surveys, Oil analysis, On-site balancing of rotating machinery, Laser shaft/coupling alignment and laser alignment of belt and chain drives.
- **TRAINING (MAINTENANCE AND OPERATOR)** - Any type of pulveriser mill including pendulum ring roller, table & roller mills and ball mills.
- **RHINO LINING** - Polyurethane wear coatings for abrasion and anti slip. Plus chemical resistant coatings. All can be applied in our workshop or at your site.

Coating of chutes, ducts, screw conveyors, cyclones and air classifiers gives considerably prolonged life and easy over coating. Please contact us for further details.
